We have audited the accompanying fund accountability statement of Pena Bulu Foundation "The Green Prosperity Project Community-Based Natural Resource Management". That funded by Millenium Challenge Account-Indonesia for the period from July 01, 2016 through September 30, 2017 and summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on such financial statements based on our audit. We conducted our audit in

Kami telah mengaudit laporan pertanggungjawaban dana Yayasan Pena Bulu "The Green Prosperity Project Community-Based Natural Resource Management", yang didanai oleh Millenium Challenge Account-Indonesia untuk periode 1 Juli 2016 sampai dengan 30 September 2017 dan ringkasan kebijakan akuntansi berikut informasi penjelasan.

Tanggungjawab Manajemen atas Laporan Keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Tanggung Jawab Auditor

Tanggung jawab kami adalah untuk menyatakan suatu opini atas laporan keuangan tersebut berdasarkan audit kami.

accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Standar tersebut mengharuskan kami untuk mematuhi ketentuan etika serta merencanakan dan melaksanakan audit untuk memperoleh keyakinan memadai tentang apakah laporan keuangan tersebut bebas dari kesalahan penyajian material.

Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Prosedur yang dipilih bergantung pada pertimbangan auditor, termasuk penilaian atas risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan. Dalam penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk menyatakan opini atas keefektivitasan pengendalian internal entitas. Suatu audit juga mencakup pengevaluasian atas ketepatan kebijakan akuntansi yang digunakan dan kewajaran estimasi akuntansi yang dibuat oleh manajemen, serta pengevaluasian atas penyajian laporan keuangan secara keseluruhan.

Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

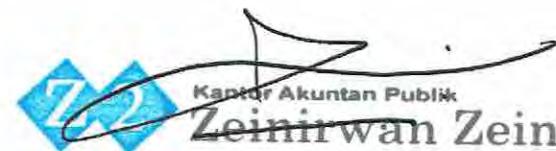

Opinion

In our opinion, the accompanying fund accountability statements present fairly, in all material respects, the fund accountability statement of Pena Bulu Foundation of project period from July 01, 2016 through September 30, 2017, in accordance with Indonesian Financial Accounting Standards.

Pendapat

Menurut pendapat kami, laporan pertanggungjawaban dana disajikan secara wajar, dalam semua hal yang material, laporan pertanggungjawaban dana Yayasan Pena Bulu untuk periode proyek sejak tanggal 1 Juli 2016 sampai dengan 30 September 2017, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

1. INFORMASI UMUM

a. Latar Belakang Organisasi dan Proyek

Pemimpin konsorsium adalah Yayasan Penabulu dan terdiri dari Asosiasi Bina Benua Puti Jati dan CV Rizky Control Electrical Engineering yang anggotanya mengajukan proposal lengkap berjudul "*Pemanfaatan Energi Terbarukan Tenaga Air Skala kecil bagi Elektrifikasi Rumah Tangga dan bagi Peningkatan Usaha Kakao Masyarakat di Kecamatan Long Apari dan Long Pahangai di Kabupaten Mahakam Ulu*". Proyek ini akan mendukung Program Kemakmuran hijau MCA-Indonesia dalam pengentasan kemiskinan dan upaya pengurangan emisi gas rumah kaca melalui proyek skala kecil yang mempromosikan inisiatif pengelolaan sumber daya alam berkelanjutan berbasis masyarakat.

Kabupaten Mahakam Ulu merupakan kawasan strategis sebagai daerah hulu Sungai Mahakam yang memberikan penghidupan dan mengalir melalui daerah lain di Provinsi Kalimantan Timur seperti Kabupaten Kutai Barat, Kabupaten Kutai Kartanegara dan Kota Samarinda. Sebagai kabupaten yang baru dikembangkan (perluasan wilayah Kabupaten Kutai Barat pada tahun 2013), masyarakat Mahakam Ulu masih memiliki masalah dengan terbatasnya penyediaan infrastruktur dan layanan dasar, akses dan moda transportasi yang terbatas, dan juga kekurangan pasokan listrik untuk memenuhi kebutuhan industri rumah tangga dan kecil.

Di sisi lain, karena daerah hulu sungai besar, Mahakam Ulu masih menyimpan 72% tutupan hutan. Namun, saat ini Kabupaten ini telah menghadapi tantangan besar dalam menyeimbangkan antara tujuan konservasi daerah tangkapan air, konservasi kawasan hutan dan tuntutan pembangunan yang lebih tinggi. Ancaman di masa depan adalah pembukaan lahan kehutanan di daerah hulu sungai untuk tujuan penambangan, perkebunan kelapa sawit, perambahan hutan, dan konversi lahan untuk praktik pertanian non-berkelanjutan.

Berdasarkan latar belakang situasi umum Kabupaten Mahakam Ulu yang dijelaskan di

1. GENERAL INFORMATION

a. *Background of the Organization and the Project*

A consortium that is lead by Penabulu Foundation and consists of Bina Benua Puti Jati Association and CV Rizky Control Electrical Engineering as its members submitted a completed proposal entitled "*Utilization of Small Hydropower Renewable Energy for Households Electrification and Improvement of Community Cacao Business in the Sub-Districts of Long Apari and Long Pahangai at Mahakam Ulu District*". The project will support MCA-I Green Prosperity Program in poverty alleviation and greenhouse gas emissions reduction efforts through a small scale project implementation that promotes community-based sustainable natural resource management initiative.

Mahakam Ulu District is a strategic area as the upstream of Mahakam River that gives livelihood and flows through other area in the East Kalimantan Province such as West Kutai District, Kutai Kartanegara District and Samarinda City. As a new developed district (regional expansion of West Kutai District in 2013), community of Mahakam Ulu is still having problems with the limited provision of infrastructure and basic services, limited access and modes of transportation, and also insufficiency of electricity for fulfilling the needs of household and small industries.

On the other hand, as the upstream area of a big river, Mahakam Ulu still keeps 72% of forest cover. However, nowadays this District has been facing a big challenge in balancing between the purpose of water catchment area conservation, forest area conservation and the higher development demands. The near future threat is forestry land clearings in the upstream river area for mining purposes, palm oil plantation, forest encroachment, and land conversion for non-sustainable agricultural practices.

Based on the general situation background of Mahakam Ulu District described above,

atas, proyek ini bertujuan untuk meningkatkan pendapatan masyarakat melalui pengembangan model pemanfaatan energi terbarukan tenaga air kecil yang berguna untuk elektrifikasi rumah tangga dan peningkatan usaha Kakao di tingkat kelompok masyarakat di dua sub kecamatan yaitu Long Apari dan Long Pahangai.

Sebagian besar penduduk di kecamatan yang ditargetkan telah didominasi oleh Suku Dayak (Dayak Bahau-Long Pahangai dan Dayak Ouheng-Long Apari), dan juga suku Bugis dan Suku Jawa. Untuk memenuhi penghidupan mereka, sebagian besar masyarakat bergantung pada penanaman Kakao dan Karet dengan menerapkan budidaya makanan berpindah (sawah dan sayuran), dan pemangkas emas ilegal di Sungai Mahakam. Penambangan emas ilegal telah dilakukan oleh masyarakat oleh kelompok selama 4 bulan dalam setahun selama musim kemarau dan dampak negatif penggunaan cairan merkuri pasti telah menghancurkan ekosistem sungai secara drastis. Selama 8 bulan lainnya, praktik penanaman tanpa upah dan perlادangan berpindah akan mempertahankan mata pencarian subsisten mereka.

Intervensi proyek akan melalui pengembangan / revitalisasi 2 instalasi energi tenaga air kecil dengan agregat daya 64 KWh yang diharapkan mampu menyediakan listrik untuk 60 rumah tangga dan dua industri kecil pengolahan Kakao. Instalasi diharapkan cukup untuk mendukung peningkatan bisnis setidaknya 15 kelompok laki-laki petani kakao (atau perkiraan jumlah total adalah 375 anggota laki-laki dari petani Kakao) dan 5 kelompok perempuan petani kakao (atau perkiraan jumlah total adalah 125 perempuan anggota petani kakao).

Proyek ini berkeinginan untuk mengembangkan model pengelolaan sumber daya alam yang mampu memastikan pemenuhan tuntutan pembangunan dan peningkatan kesejahteraan masyarakat melalui pemanfaatan layanan lingkungan dan sumber daya alam lokal secara berkelanjutan.

the project aims to increase community income through model development of small hydropower renewable energy utilization that is useful for households' electrification and Cacao business improvement in the level of community group at the two sub-districts namely Long Apari and Long Pahangai.

Most population in the targeted sub-districts has been dominated by Dayak Ethnic (Dayak Bahau-Long Pahangai and Dayak Ouheng-Long Apari), and also Bugis and Javanese Ethnics. In order to fulfill their livelihood, most of the community depends on cultivating Cacao and Rubber by implementing shifting food cultivation (rice fields and vegetables), and illegal gold panning at Mahakam River. Illegal gold mining has been done by the community by groups for 4 months in a year during dry season and the negative impact of using mercury liquid definitely has been destroying river ecosystem drastically. During other 8 months, nonproductive planting practices and shifting cultivation will maintain their subsistence livelihood.

The project intervention will be going through development/revitalization of 2 small hydropower energy installations with 64 KWh power aggregation that are expected to be able to provide electricity for 60 households and two small industry of Cacao processing. The installations are expected to be sufficient for supporting business enhancement of at least 15 male Cacao farmer groups (or estimated total number is 375 male members of Cacao farmers) and 5 female Cacao farmer groups (or estimated total number is 125 female members of Cacao farmers).

The project desires to develop natural resource management model that is able to ensure fulfillment of the development demands and community welfare improvement through environment service utilization and local natural resources in sustainable way.

Proyek ini akan dilaksanakan selama 18 bulan, mulai Juli 2016 sampai Desember 2017. Rencana total biaya proyek adalah Rp 19.634.311.497. Jumlah Rp 19.634.311.497 diharapkan dapat didanai oleh Program Hibah PSDABM MCA-Indonesia, berdasarkan perjanjian hibah nomor 2016/Grant/048 tanggal 30 Juni 2016. Dan perjanjian hibah nomor 2016/Grant/048 tanggal 30 Juni 2016 mengalami perubahan kesepakatan yang tertuang dalam Surat Perubahan nomor 2016/Grant/048A tanggal 14 Agustus 2017, dengan realisasi sebesar Rp20.684.389.482 untuk periode 01 Juli 2017 sampai dengan 31 Januari 2018.

Proyek Kemakmuran Hijau adalah salah satu proyek yang menerima dana di bawah Compact. Proyek ini memiliki dua tujuan spesifik: untuk meningkatkan produktivitas dan mengurangi ketergantungan pada bahan bakar fosil dengan memperluas energi terbarukan dan untuk meningkatkan produktivity dan mengurangi emisi gas rumah kaca berbasis lahan dengan memperbaiki praktik penggunaan lahan dan pengelolaan resorces alam.

Hasil Proyek: Program pengentasan kemiskinan dan upaya pengurangan emisi gas rumah kaca melalui penerapan proyek skala kecil yang mempromosikan inisiatif pengelolaan sumber daya alam berkelanjutan berbasis masyarakat.

Tujuan Proyek

Program ini bertujuan untuk mendukung kegiatan berikut:

- Pengembangan instalasi energi tenaga air kecil di Desa Tiong Ohang, Kecamatan Long Apari
- Revitalisasi instalasi energi tenaga air Suwan kecil di Long Pahangai I, Kecamatan Long Pahangi
- Mengembangkan industri kecil pengolahan Kakao di Kecamatan Long Apari dan Long Pahangai
- Kapasitas buliding pekerja ringan PLTA dan Pelaksana pekerja industri kecil
- Kapasitas buliding petani kakao dalam proses budidaya dan pasca panen

This project will be implemented for 18 months, starting from July 2016 until December 2017. Planned total project cost is IDR 19.634.311.497. The amount of IDR 19.634.311.497 is expected to be funded by Grant of PSDABM MCA-Indonesia Program, based on grant agreement number 2016/Grant/048 dated June 30, 2016. And grant agreement number 2016/Grant/048 dated June 30, 2016 experiencing changes agreement contained in Letter of Amendment number 2016/Grant/048A dated August 14, 2017, with the realization amount of not exceed IDR 20.684.389.482 for the period July 01, 2016 to January 31, 2018.

The Green Prosperity Project is one of the projects receiving funding under Compact. The project has two specific objectives: to increase productivity and reduce reliance on fossil fuels by expanding renewable energy and to increase productivity and reduce land-based greenhouse gas emissions by improving land use practice and management of natural resources.

Project Result : Program of poverty alleviation and greenhouse gas emissions reduction efforts through a small scale project implementation that promotes community-based sustainable natural resources management initiative.

Project's Objectives

The program aims to support the following activities:

- *Development of small hydropower energy installations at Tiong Ohang Village, Long Apari sub-districts*
- *Revitalization of Suwan small hydropower energy installations at Long Pahangai I, Long Pahangi Sub-districts*
- *Development of small industry of Cacao processing at Long Apari and Long Pahangai sub-districts*
- *Capacity buliding of small worker at hydropower energy installations and Implementor of small industry worker*
- *Capacity buliding of the Cacao farmer in cultivation and post harvest processing*
